AGREEMENT FOR RESEARCH COLLABORATION

=====

AGREEMENT FOR RESEARCH COLLABORATION

THIS AGREEMENT is made on the 15 day of December 2025

BETWEEN

INSTITUTE FOR INFOCOMM RESEARCH, A*STAR RESEARCH ENTITIES (Co. Registration No. 199702110H), having its principal office at 1 Fusionopolis Way, #21-01 Connexis (South Tower), Singapore 138632 (hereinafter referred to as "**I²R**") of the first part;

AND

TelePT Pte Ltd (Co. Registration no 202527474H), a company incorporated in Singapore, of 77 Robinson Road, #13-00, Robinson 77, Singapore 068896 (hereinafter referred to as "**COLLABORATOR**") of the second part.

RECITALS

- (A) I²R is a national research institution based in Singapore and funded by the Agency for Science, Technology and Research ("A*STAR") and has considerable knowledge, expertise and experience in, inter alia, the field of Artificial Intelligence, Audio; Language & Speech, Data Analytics, Communications & Networks, Cybersecurity, Heterogeneous Analytics, Healthcare, Robotics & AV, Satellite, Smart Energy & Environment and Video & Image Analytics..
- (B) COLLABORATOR and its Affiliates are commercial companies and have an interest, expertise and intellectual property, proprietary technologies and know-how in the fields of Artificial Intelligence, including use of AI and video analytics for senior care ("Senior Care") and other AI applications.
- (C) I²R, and COLLABORATOR wish to collaborate in research and development in the area of interest referred to above by undertaking the Project (as defined below) on the terms and conditions set out below.
- (D) I²R has accepted a grant from the Agency for Science, Technology and Research ("A*STAR" or "Grantor") under the IEO Decentralised GAP (Award No. I25D1AG014) ("Grant") for the purposes of undertaking the Project entitled Development of biomechanically-accurate telephysiotherapy AI (TelePT)" under the terms and conditions stipulated by the Grantor in its Letter of Award dated 29 July 2025 ("Letter of Award"). The Parties have come together to collaborate in the conduct of the Project.
- (E) The Parties acknowledge that I²R's use of the Grant shall be in compliance with the terms and conditions stipulated in the Letter of Award, including its annexures (collectively the "Grant Terms")
- (F) In the course of the Project, the Collaborator agrees to cooperate with I²R in good faith and do all things reasonably necessary (as informed by I²R with reasonable notice) to enable I²R to comply with the Grant Terms, including but not limited to timely provision of information, records with regards to the qualifying expenditure incurred in relation to the Project, and to provide reports reasonably requested by I²R for the purposes of meeting all obligations under the Grant. I²R and COLLABORATOR wish to collaborate in research and development in the area of interest referred to above by undertaking the Project (as defined below) on the terms and conditions set out below.

NOW IT IS HEREBY AGREED as follows:

1. DEFINITIONS

In this Agreement, unless otherwise expressly provided, the following terms shall have meanings ascribed to them below.

"Affiliates" means: (i) an organisation, which directly or indirectly controls a Party; or (ii) an organisation which is directly or indirectly controlled by a Party; or (iii) an organisation, which is controlled, directly or indirectly, by the ultimate parent company of a Party. The term "control" as used herein means the possession of the power to direct or cause the direction of the management and the policies of an entity, whether through the ownership of a majority of the outstanding voting security or by contract. The term 'Affiliate' with regards to I²R shall include A*STAR, A*CCELERATE and all other research institutes and centres funded and managed by A*STAR. The term 'Affiliate' with regards to Collaborator shall include AI Thinktank Pte Ltd.

"A*CCELERATE" means Accelerate Technologies Pte Ltd, the commercialization and marketing arm of A*STAR and I²R.

"A*STAR" means the Agency for Science, Technology and Research.

"Confidential Information" means the terms of this Agreement and any and all information, in tangible or intangible form, data, designs, memoranda, models, processes, prototypes, software, know-how, marketing information, strategic partners and present and future business plans or activities, agent and customer information and lists, financial information (including, without limitation, revenues, prices, costs, pricing policies and procedures), contracts, research activities, technology under development, product information, proprietary technical documentation, potential business opportunities and/or other material whether of scientific, technical, commercial, financial or other nature, furnished to or obtained by a Party ("Recipient") from another Party ("Discloser") under this Agreement in written, oral or other tangible form clearly marked or designated as "Confidential" or by words of similar import. Information communicated by a disclosing Party orally or visually shall be summarized in writing, marked "Confidential" and delivered to the receiving Party within fourteen (14) days of such communication failing which such information shall not constitute Confidential Information.

"COLLABORATOR Residual Project IP" means all Residual Project IP which was discovered, developed, created, conceived or reduced to practice solely by COLLABORATOR or its employees, servants, invitees or agents in the course of the Project.

"COLLABORATOR Technical Project IP" means all IP in the technical areas designated in the "TelePT FIP" subsection under Section 5.4 of Schedule 1, which was discovered, developed, created, conceived or reduced to practice by any Party or its employees, servants, invitees or agents in the course of the Project.

"Effective Date" means the date first written above.

"I²R Residual Project IP" means all Residual Project IP which was discovered, developed, created, conceived or reduced to practice solely by I²R or its employees, servants, invitees or agents in the course of the Project.

"I²R Technical Project IP" means all IP in the technical areas designated in the "I²R FIP" subsection under Section 5.4 of Schedule 1, which was discovered, developed, created, conceived or reduced to practice by any Party or its employees, servants, invitees or agents in the course of the Project.

"Intellectual Property (IP)" means any and all of the following in any jurisdiction throughout the world, all intellectual property rights, including without limitation: patents and patent applications; copyrights, including all applications and registrations, and works of authorship, whether or not copyrightable; trade secrets, confidential Know-how, technologies, methodologies, rights in databases and other confidential and proprietary information; designs, semiconductor layout designs; worldwide arising under statutory or common law, and whether or not perfected.

"Joint Residual Project IP" means all Residual Project IP which was discovered, developed, created, conceived or reduced to practice jointly by both Parties or their employees, servants, invitees or agents in the course of the Project.

"Know-How" means any methods, techniques, processes, discoveries, inventions, innovations, unpatentable processes, specifications, recipes, formulae, designs, plans, documentation, drawings, data and other technical information which is secret, and identified or identifiable in a tangible form.

"Party" means I²R or COLLABORATOR.

"Parties" means both Parties collectively.

"Pre-Collaboration IP or "Background IP" (BIP)" means all IP owned or controlled by a Party and which was discovered, developed, created, conceived or reduced to practice either: (a) prior to commencement of the work performed pursuant to this Agreement or (b) outside the scope of the work performed pursuant to this Agreement and which is introduced to or disclosed for the Project or otherwise supplied by a Party; and for I²R shall mean the Pre-Collaboration IP which is expressly documented (in Section 5.1,5.2,5.3 Schedule 1) by the respective Parties and made available to COLLABORATOR.

"Project" means the research and development activities specified in the Project Plan.

"Project IP" means all IP which was discovered, developed, conceived or reduced to practice either solely by either Party or jointly by the Parties, or their employees, servants, invitees or agents, in the course of the Project.

"Project Plan" means the statement of work set out in Schedule 1 annexed hereto.

"Residual Project IP" means all Project IP excluding Technical Project IP.

"Technical Project IP" means all Project IP in the technical areas described at Schedule 1 Section 5.4

"Term" means the period as specified in Clause 4.

2. STATEMENT OF WORK

- 2.1 The Parties hereby agree to collaborate in the Project in accordance with the terms of this Agreement.
- 2.2 The Parties recognize that the Project is research in nature and hence completion within the period of performance cannot be guaranteed. To the extent that I²R believes it will not be able to complete any milestone within the period of performance, it shall promptly notify the COLLABORATOR and explain the reasons therefor and the Parties agree to use commercially reasonable efforts to work in good faith to address the situation including to extend the period of performance if required and mutually agreed. The Parties shall exercise reasonable efforts in the performance of the Agreement in accordance with the agreed scope of works.
- 2.3 The Parties agree and declare that the obligations of the Parties under this Agreement shall cease (except as otherwise set forth in Clause 13) upon the end of the Term or upon termination of this Agreement.
- 2.4 Each Party shall obtain all relevant ethics and other approvals as may be relevant for its participation in the Project.

3. CO-ORDINATORS

- 3.1 The Project shall be supervised and coordinated by Dr Zhang Haihong from I²R (hereinafter referred to as "I²R Co-ordinator"); and Dr Lei Li from COLLABORATOR (hereinafter referred to as "COLLABORATOR Co-ordinator"). Each coordinator (and any appointed successor) shall provide written notice of a valid email address by which the coordinator can be reached and for purposes of providing any notices, including for Notices under Clause 18.

- 3.2 If for any reason any of the above-named Co-ordinator is unable to continue to serve under the Project, that particular Party agrees to appoint a successor within thirty (30) days of the unavailability of its Co-ordinator, failing which the provisions of Clause 12.2 shall apply.

4. **TERM**

This Agreement shall come into force on the Effective Date and shall continue for a period of Nine (9) months unless earlier terminated in accordance with the terms of this Agreement or extended by the Parties' agreement in writing.

5. **PROJECT CONTRIBUTIONS**

- 5.1 Each Party will make such contributions in terms of manpower deployment, equipment, facilities, cash funding and other contributions as specified in Schedule 1, or as agreed from time to time by the Parties in writing.

- 5.2 COLLABORATOR shall pay to I²R the sum of Singapore Dollars Two Hundred and Fifty Thousand (\$250,000) in accordance with the payment schedule specified in the Project Plan. Payments shall be made without any deduction or set-off whatsoever. The aforesaid sum is exclusive of goods and services tax and any other applicable taxes, and all such taxes shall be borne by COLLABORATOR, provided that each Party shall be liable for its own income tax obligations.

- 5.3 All rights, title and interest in any equipment and consumables purchased by I²R with the funding provided by COLLABORATOR as described in Clause 5.1 above shall vest in I²R.

6. **PUBLICATIONS**

- 6.1 A Party may publish at any symposia, national, international or regional professional meeting or in any journal, thesis, dissertation, newspaper or otherwise of its own choosing, the findings, methods and results derived from the Project, but always subject to due observance of this Clause 6.

- 6.2 The Party intending to make the publication ("the Publishing Party") shall furnish the other Parties ("the Other Parties") copies of such proposed publication or presentation at least 30 days in advance of the submission of such proposed publication or presentation to a journal, editor, or other third party. The Other Parties shall within fourteen (14) days of receipt of the proposed publication or presentation forward its written objections to the same either because there is patentable subject matter that needs protection and/or there is Confidential Information (as defined in Clause 1 herein) or patentable information of the Other Parties contained in the proposed publication or presentation. If no objection is made to the proposed publication or presentation within the stipulated time, the Publishing Party shall be free to proceed with the publication or presentation. In the event of a timely filed objection, the Publishing Party shall not publish the proposed publication until the Parties have worked in good faith to remove objectionable material, delay the publication for purposes of preserving IP rights or mutually agreed to some other resolution as set forth in Clauses 6.3 and 6.4.

- 6.3 Confidential Information identified by the Other Parties, which is governed by Clause 7, shall be deleted from the proposed publication or presentation unless the Other Parties consider the Confidential Information to be patentable information, in which case it will be treated as set forth in the following sub-Clause.

- 6.4 In the event that the Other Parties object to any such publication or presentation on the basis that the same would disclose patentable information belonging to the Other Parties, the Publishing Party shall refrain from making such publication or presentation for a further period of sixty (60) days from date of receipt of such objection in order for the relevant patent application(s) to be filed.

- 6.5 Each Party shall, in any publications it makes in relation to the methods, results and findings of the Project, acknowledge the other Parties' contributions to the Project.

7. CONFIDENTIALITY

- 7.1 Each Party agrees, for the Term and for a period of three (3) years after the termination or expiration of the Agreement, to treat the Confidential Information of the other Parties as strictly confidential and not to disclose it to any third party for any purpose whatsoever and not make use of the Confidential Information or any part thereof other than for the Project in accordance with the terms of this Agreement and to treat it with at least the same care and in the same manner as its own secret and valuable information. The receiving Party shall ensure that its employees to whom Confidential Information is disclosed covenant to keep such information confidential to the extent that the receiving Party is bound by this Agreement and that such covenants on the part of employees are strictly observed.
- 7.2 The provisions of Clause 7.1 above shall not apply to any:
- 7.2.1 information which is or was already known to the receiving Party at time of disclosure to it; or
 - 7.2.2 information which after disclosure to the receiving Party under this Agreement is published or otherwise generally available to the public otherwise than through any act, default or omission by the receiving Party of its obligations hereunder; or
 - 7.2.3 information which can be established by tangible evidence was independently developed by the receiving Party without the use of or reference to the disclosing Party's Confidential Information; or
 - 7.2.4 information which is required by any written law to be disclosed to governmental or regulatory bodies or to a court of competent jurisdiction pursuant to law or a valid written court order, provided, however, that such disclosure is limited to that required to be disclosed and the receiving Party first provides (provided that this is not prohibited by law) sufficient advance notice to the disclosing Party to enable the disclosing Party to object if appropriate and/or take steps to ensure the confidentiality of the disclosed information; or
 - 7.2.5 information which is disclosed to the receiving Party by a third party without restriction and without breach of the confidentiality obligations under this Agreement by the receiving Party.
- 7.3 It is agreed that the Parties may disclose all or any part of the Confidential Information to their Affiliates solely to the extent necessary for fulfilling their obligations under this Agreement or for purposes contemplated by this Agreement, or as required for organisational reporting purposes, or to seek legal advice or commercialisation related advice, and subject to the condition that the Party shall first ensure that such Affiliates also agree to treat the Confidential Information as confidential in accordance with the terms of this Agreement. Further, the Parties may disclose all or any part of the Confidential Information to their attorneys, or other professional advisors for bona fide purposes in connection with this Agreement, provided such attorneys and other professional advisors also agree to treat the Confidential Information as confidential in accordance with the terms of this Agreement.
- 7.4 The receiving Party acknowledges that unauthorized disclosure or use of Confidential Information could cause great or irreparable injury to disclosing Party and that pecuniary compensation would not afford adequate relief or it would be extremely difficult to ascertain the amount of compensation which would afford adequate relief. Therefore, the receiving Party agrees that, in the event of such unauthorized disclosure or use of Confidential Information, the disclosing Party will have the right to seek and obtain injunctive relief in addition to any other rights and remedies it may have.
- 7.5 Except for the disclosure of the existence of this Agreement, including the title and identification of the Parties, which information shall not be deemed confidential, no Party shall disclose the specific terms and conditions of this Agreement without the express permission of the other Parties.

8. INTELLECTUAL PROPERTY

- 8.1 COLLABORATOR agrees that if any licences to third party's IP are required by I²R or COLLABORATOR in the conduct of their scope of work under this Agreement, COLLABORATOR shall be solely and fully responsible for procuring all such licences and I²R will not be responsible for procuring the same.
- 8.2 All rights, title and interests to Pre-Collaboration IP shall remain with the Party introducing or disclosing the same and such rights shall remain unfettered by this Agreement. Each Party grants to the other Parties the right to use its Pre-Collaboration IP solely for the purposes of the Project and solely during the Term and for no other purposes except as provided in this Agreement. Except as otherwise provided in writing in this Agreement, each Party shall cease use of the other Party's Pre-Collaboration IP upon expiration or termination of this Agreement.
- 8.3 All rights, title and interests to I²R Residual Project IP and I²R Technical Project IP shall be solely owned by I²R. It is agreed that I²R shall be entitled to assign all its rights, titles and interests in the I²R Project IP and I²R Technical Project IP to A*STAR or its nominee, and that A*STAR or its nominee shall be entitled to appoint A*CCCELERATE to undertake all patenting, commercial and/or licensing activities relating to the same on its behalf.
- 8.4 All rights, title and interests to COLLABORATOR Residual Project IP and COLLABORATOR Technical Project IP shall be solely owned by COLLABORATOR. COLLABORATOR shall be free to assign any COLLABORATOR Residual Project IP and COLLABORATOR Technical Project IP, including to an Affiliate.
- 8.5 The Parties do not anticipate the creation of any Joint Residual Project IP. However, in the event that any Joint Residual Project IP is created, all rights, interests and title to Joint Residual Project IP shall be governed by the following provisions:
- 8.5.1 The Parties which jointly discovered, developed, conceived or reduced to practice the particular Joint Residual Project IP shall own it as joint tenants. COLLABORATOR agrees and accepts that I²R may, at its absolute discretion, assign or otherwise transfer to A*STAR, its share of the legal and beneficial ownership in the Joint Residual Project IP without any reference to COLLABORATOR or any obligation to obtain COLLABORATOR's consent.
- 8.5.2 If Joint Residual IP is identified the Parties shall enter into a joint ownership agreement to address the details of the Joint Residual IP, procedures, powers and other relevant aspects of joint ownership.
- 8.5.3 Subject to any written agreements to the contrary, each Party shall have the free and unfettered right to use, commercialise and license to third parties the relevant Joint Residual Project IP for any purpose without seeking the consent of, and accounting to, the other Party. The aforesaid right to use the Joint Residual Project IP shall extend to all research centres and institutes funded and managed by A*STAR and to COLLABORATOR and its Affiliates. Notwithstanding the foregoing, except as specifically set forth in writing, no Party, Party Affiliate or other entity shall use or have a license to use any of the other Party's or its Affiliates Pre-Collaboration IP. It is agreed that any new Intellectual Property conceived or reduced to practice by the aforesaid use of the Joint Residual Project IP shall be the property of the party developing or inventing the same and the owner shall be entitled to deal with the said Intellectual Property at its absolute discretion. Except as specifically set forth in writing, all determination of ownership of Intellectual Property shall be determined based on inventorship or authorship under relevant existing intellectual property laws.
- 8.6 Options for licence
- 8.6.1 I²R shall procure the grant of an option ("the Exclusive Option") to COLLABORATOR to negotiate an exclusive, royalty bearing, revocable for cause licence to use the I²R Residual Project IP and/or I²R Technical Project IP (save for Know-How comprised in such Project IP) and a non-exclusive, royalty bearing, revocable for cause licence to use

the Know How comprised in the I²R Residual Project IP and/or I²R Technical Project IP for their commercial activities subject to terms and conditions to be agreed. The Parties agree and acknowledge that the exact I²R Residual Project IP and/or I²R Technical Project IP to be licensed, quantum of licensing fees, rate of royalty, nature of the licensed products and licensed services (if any), duration of any licence, field and territory, to which the I²R Residual Project IP and/or I²R Technical Project IP is to be applied as well as other terms shall be defined with more particularity in the licence agreement to be concluded. For the avoidance of doubt, I²R shall be under no obligation to procure the grant of the said licence if this Agreement is terminated for any reason whatsoever. The Exclusive Option shall be exercised within ninety (90) days upon the end of the Term and a licence agreement shall be concluded as soon as practicable and in any event, within ninety (90) days of the date of the exercise of the Exclusive Option.

- 8.6.2 I²R shall procure the grant of an option ("the Joint Residual Project IP Option") to COLLABORATOR to negotiate an exclusive, royalty bearing, revocable for cause licence to use the Joint Residual Project IP (save for Know-How comprised in the Joint Residual Project IP) for their commercial activities subject to terms and conditions to be agreed. The Parties agree and acknowledge that the exact Joint Residual Project IP to be licensed, quantum of licensing fees, rate of royalty, nature of the licensed products and licensed services (if any), duration of any exclusive licence, field and territory, to which the Joint Project IP (save for Know-How comprised therein) is to be applied as well as other terms shall be defined with more particularity in the licence agreement to be concluded. For the avoidance of doubt, I²R shall be under no obligation to procure the grant of the said licence if this Agreement is terminated for any reason whatsoever. The Joint Residual Project IP Option shall be exercised within ninety (90) days upon the end of the Term and a licence agreement shall be concluded as soon as practicable and in any event, within ninety (90) days of the date of the exercise of the Joint Residual Project IP Option.
- 8.6.3 I²R shall procure the grant of an option ("the Pre-Collaboration IP Option") to COLLABORATOR to negotiate a non-exclusive, royalty bearing, revocable for cause licence to use the I²R Pre-Collaboration IP (save for Know-How comprised in the I²R Pre-Collaboration IP) and a non-exclusive, royalty bearing, revocable for cause licence to use the Know How comprised in the I²R Pre-Collaboration IP for their commercial activities subject to terms and conditions to be agreed. The Parties agree and acknowledge that the exact I²R Pre-Collaboration IP to be licensed, quantum of licensing fees, rate of royalty, nature of the licensed products and licensed services (if any), duration of any licence, field and territory, to which the I²R Pre-Collaboration IP is to be applied as well as other terms shall be defined with more particularity in the licence agreement to be concluded. For the avoidance of doubt, I²R shall be under no obligation to procure the grant of the said licence if this Agreement is terminated for any reason whatsoever. The I²R Pre-Collaboration IP Option shall be exercised within ninety (90) days upon the end of the Term and a licence agreement shall be concluded as soon as practicable and in any event, within ninety (90) days of the date of the exercise of the I²R Pre-Collaboration IP Option.
- 8.6.4 Notwithstanding the foregoing options, I²R shall be entitled to reserve a royalty-free, irrevocable, worldwide, perpetual and non-exclusive right for the Singapore Government and Singapore public sector agencies to use any Project IP for statutory functions, non-commercial and/or R&D purposes by such Government and public sector agencies.

- 8.7 Except as expressly set forth in this Agreement, no license or other rights (whether express or implied) in any Party's Intellectual Property is granted to the other Party, any of its Affiliates or any other entity.

9. COLLABORATION

For the avoidance of doubt, it is agreed that notwithstanding the terms and conditions of this Agreement, each Party will have the following rights:

- (a) to conduct any research or development work in any field (including work relating to the research contemplated under this Agreement) independently of the other Party, whether by itself or in collaboration with any other party subject to each Party observing the provisions of Clause 7 hereof;
- (b) to continue existing commitments or to make new ones; and
- (c) to use, exploit (including sub-licensing) or otherwise take advantage of its Intellectual Property (other than the Project IP or other Intellectual Property which is subject to the terms and conditions of this Agreement, e.g., where any exclusive rights are granted).

10. WARRANTIES AND LIABILITIES

10.1 Each Party represents and warrants that it has the right to enter into this Agreement and provide the materials and services described herein. Except for the foregoing, or as otherwise set forth herein neither Party makes any representations or warranties, either express or implied, with respect to any information, its Pre-Collaboration IP, the work performed pursuant to the terms of this Agreement, or the Project IP developed under this Agreement. Without limiting the generality of the foregoing, the Parties expressly disclaim any implied warranty, condition or representation that the said information, their Pre-Collaboration IP and/or the Project IP developed under this Agreement:

10.1.1 shall correspond with a particular description;

10.1.2 is of a merchantable satisfactory quality;

10.1.3 is fit for a particular purpose; or

10.1.4 is durable for a reasonable period of time.

10.2 Nothing in this Agreement shall be construed as:

10.2.1 a warranty by each party that anything made, used, sold or otherwise disposed of in connection with its Pre-Collaboration IP disclosed or introduced hereunder or that the Project IP developed is or will be free from infringement of patents, copyrights, trademarks, industrial designs or other intellectual property rights of any third party; or

10.2.2 an obligation on each party to bring or prosecute or defend actions or suits against or by third parties for infringement of patents, copyrights, trademarks, industrial designs or other intellectual property or contractual rights, whether in connection with its Pre-Collaboration IP or Project IP developed under this Agreement or otherwise.

10.3 No action whether in contract or tort (including negligence) or otherwise arising out of or in connection with this Agreement may be brought by a Party against another more than three (3) years after the cause of action has accrued.

10.4 Save for death or personal injuries caused by negligence, in no event shall a Party, whether as a breach of contract, tort or otherwise, have any liability to the other Party or to a third party for any indirect, special, incidental, consequential damages, loss of profits or pure economic loss.

10.5 Notwithstanding anything to the contrary, each Party's total and cumulative liability under this Agreement, however arising, shall not exceed Singapore Dollars Two Hundred and Fifty Thousand (\$250,000).

11. USE OF NAMES

Neither Party shall issue any press release relating to this Agreement without obtaining the prior written consent of the other Parties. Prior to being released or made, a copy of all press releases which a Party intends to issue or make regarding this Agreement shall be provided to the other Parties for approval, which approval shall not be unreasonably withheld.

12. TERMINATION

- 12.1 A Party shall be entitled to terminate this Agreement immediately by notice in writing to the other Party (but without prejudice to any rights the Party may have against the other arising prior to such termination) if any of the events set out below shall occur. The said events are:
- 12.1.1 if the other Party shall commit any material breach of any of its obligations under this Agreement and shall fail to remedy such breach (if capable of remedy) within thirty (30) days after being given notice by the first Party so to do; or
- 12.1.2 if the other Party shall go into liquidation whether compulsory or voluntary (except for the purposes of a bona fide reconstruction or amalgamation with the consent of the first Party, such consent not to be unreasonably withheld) or if such other Party shall have an administrator appointed or if a receiver, administrative receiver or manager shall be appointed over any part of the assets or undertaking of such other Party.
- 12.2 Pursuant to Clause 3.2, a Party shall be entitled to terminate this Agreement if the events specified in Clause 3.2 hereof occur, in which case the particular Party shall be relieved of its obligations herein (except for the obligations described in Clause 13.2 and any other obligations that are expressed to survive termination of this Agreement) and shall have no liability whatsoever to the other Party in respect of such termination.
- 12.3 Either Party shall be entitled to terminate this Agreement immediately by notice in writing to the other Party if the Grant is terminated by the Grantor.

13. CONSEQUENCE OF TERMINATION

- 13.1 The provisions of Clauses 6, 7, 8, 9, 10, 11, 12.2 13, 14, 15, 16, 17, 18, 19, 20 and 21 shall continue in full force and in accordance with their terms, notwithstanding the expiration or termination of this Agreement for any reason.
- 13.2 Without prejudice to any claims for damages that a Party may be entitled to, upon termination or expiration of this Agreement,
- 13.2.1 each Party shall promptly return all materials of the other Parties in its possession, including, without limitation, Confidential Information of the other Parties, upon the request of the other Party; and
- 13.2.2 where applicable, COLLABORATOR shall pay I²R for all work completed by I²R and any non-cancellable commitments incurred by I²R up to and including the date of termination.

14. ASSIGNMENT

- 14.1 Save as expressly provided in this Agreement, no Party shall assign this Agreement or otherwise transfer its rights or obligations, or any part thereof, under this Agreement without the prior written consent of the other Parties.
- 14.2 It is agreed that if at any time after the date of this Agreement the functions and operations of I²R are assigned, merged, transferred into or otherwise forms part of another organization of A*STAR ("the New Entity"), such that the New Entity takes over the whole or substantially the whole of I²R's operations, then it is agreed that I²R may:
- 14.2.1 at its option, assign this Agreement in its entirety to the New Entity which will then assume all of I²R's rights and obligations hereunder.
- 14.3 It is agreed that at any time after the date of this Agreement the COLLABORATOR may assign this Agreement to (a) any of its Affiliates, or (b) a third party as part of any sale of all or substantially all of its assets of COLLABORATOR or any Affiliate to which the subject matter of this Agreement relates, or pursuant to any merger, consolidation or reorganization, in each case subject to I²R's written consent, which shall not be unreasonably withheld.

15. FORCE MAJEURE

- 15.1 No Party shall be liable for delays in delivery or performance when caused by any of the following which are beyond the actual control of the delayed Party: (i) acts of God, (ii) acts of the public enemy, (iii) acts or failure to act by the other Party, (iv) acts of civil or military authority, (v) governmental priorities, (vi) hurricanes, (vii) earthquakes, (viii) fires, (ix) floods, (x) epidemics or pandemics, (xi) embargoes, (xii) war, and (xiii) riots (hereinafter referred to as the "Force Majeure Event").
- 15.2 The respective obligations of a Party hereunder shall be suspended during the time and to the extent that such Party is prevented from complying therewith by a Force Majeure Event provided that such Party shall have given written notice thereof, specifying the nature and details of such event and the probable extent of the delay to the other Parties.
- 15.3 In case of a Force Majeure Event, the time for performance required by a Party under this Agreement shall be extended for any period during which the performance is prevented by the event. However, the other Party may terminate this Agreement by notice if such an event prevents performance continuously for more than thirty (30) days.

16. DISPUTE RESOLUTION

- 16.1 The Parties agree to attempt to settle any claim or controversy arising out of this Agreement through consultation and negotiation in good faith and spirit of mutual cooperation. Any dispute between the Parties relating to this Agreement will first be submitted in writing to one senior executive from each Party, who will promptly meet and confer in an effort to resolve such dispute. Each Party's senior executive will be identified by notice to the other Parties, and may be changed at any time thereafter by notice to the other Parties. Any agreed decisions of the senior executives will be final and binding on the Parties. In the event the senior executives are unable to resolve any dispute within thirty (30) days after submission to them, any Party may then refer such dispute to arbitration in accordance with Clause 16.2. Notwithstanding the foregoing, any disputes with respect to intellectual property rights shall be submitted to the courts and not be subject to the provisions of Clause 16.2.
- 16.2 Any dispute which cannot be resolved by amicable settlement by the process described in Clause 16.1 above shall be referred to and finally resolved by arbitration in Singapore in accordance with the Arbitration Rules of Singapore International Arbitration Centre for the time being in force which rules are deemed to be incorporated by reference to this clause. The tribunal shall consist of a single arbitrator. The language of the arbitration shall be in English. Any award made hereunder shall be final and binding upon the Parties and judgment on such award may be entered into any court of tribunal having jurisdiction hereof.

17. GOVERNING LAW

The validity and interpretation of this Agreement and the legal relation of the Parties to it shall be governed by the laws of Singapore and the Parties submit to the jurisdiction of the Singapore Courts.

18. NOTICE

- 18.1 Any notice to be given by any Party to this Agreement shall be in writing and shall be deemed duly served if delivered personally or sent by facsimile transmission, email or by prepaid registered post to the addressee at the address as stated above or (as the case may be) the facsimile number or email address of that Party or at such other address (or facsimile number or email) as the Party to be served may have notified the other Parties for the purposes of this Agreement. Written notices and other communications contemplated by this Clause 18.1 may be given electronically by e-mail from the standard domain name of the sending Party to: (a) the coordinator specified by the other pursuant to Clause 3. Email notices given in accordance with this Clause 18.1 shall be effective when sent.
- 18.2 Any notice sent by facsimile shall be deemed served when despatched and any notice served by prepaid registered post shall be deemed served forty-eight (48) hours after despatch thereof. In

proving the service of any notice it will be sufficient to prove in the case of a letter that such letter was properly stamped addressed and place in the post or delivered or left at the current address if delivered personally and in the case of a facsimile transmission was duly despatched to the facsimile number of the addressee given above or subsequently notified for the purposes of this Agreement.

19. ENTIRE AGREEMENT

Unless otherwise expressly specified, this Agreement embodies the entire understanding between the Parties in respect of the Project and any prior or contemporaneous representations, either oral or written, regarding the Project, are hereby superseded. No amendments or changes to this Agreement shall be effective unless made in writing and signed by authorized representatives of the Parties.

20. GENERAL

- 20.1 All deliverables, information, and other subject matter made available to a Party shall be used for commercial and/or civilian purposes only. Such Party shall ensure that it and its end-users comply with all applicable laws, rules and regulations governing the use, export and disposal of the deliverables, information, and other subject matter.
- 20.2 No exercise or failure to exercise or delay in exercising any right power or remedy vested in any Party under or pursuant to this Agreement shall constitute a waiver by that Party of that or any other right power or remedy. No waiver shall be binding upon a Party unless it is in writing and signed by such Party. Such waiver shall apply only to the specific default or the instance specified, and a waiver of any default shall not waive any other default, whether or not similar to the default waived. The rights granted the Parties are cumulative and the waiver by a Party of any single remedy shall not constitute a waiver of such Party's right to assert all other legal remedies available to such Party under the circumstances. No right or remedy conferred by this Agreement is exclusive of any other right or remedy conferred herein or by law or in equity; rather, all of such rights and remedies are cumulative of every other such right or remedy and may be exercised concurrently or separately from time-to-time.
- 20.3 The Parties shall co-operate with each other and execute and deliver such instruments and documents and take such other action as may be reasonably requested from time to time in order to carry out and confirm the rights and the intended purpose of this Agreement.
- 20.4 In the event that any term, condition or provision of this Agreement is held to be unenforceable, void or a violation of any applicable law, statute or regulation the same shall be deemed to be deleted from this Agreement and shall be of no force and effect and both Parties shall be relieved of all obligations arising under such provision, but only to the extent that such provision is illegal, unenforceable or void, and this Agreement shall remain in full force and effect as if such term condition or provision had not originally been contained in this Agreement. It is the intent and agreement of the Parties that this Agreement shall be deemed amended by modifying such provision to the extent necessary to make it legal and enforceable while preserving its intent or, if that is not possible, by substituting therefore another provision that is legal and enforceable and achieves the same objective. Notwithstanding the above in the event of any such deletion the Parties shall negotiate in good faith in order to agree the terms of a mutually acceptable and satisfactory alternative provision in place of the provision so deleted.
- 20.5 This Agreement may be executed in any number of counterparts or duplicates each of which shall be an original but such counterparts or duplicates shall together constitute but one and the same agreement.
- 20.6 All section headings contained in this Agreement are for convenience only. Accordingly, they shall not constitute a part of this Agreement when interpreting or enforcing this Agreement. The recitals and schedules of this Agreement shall form an integral part of this Agreement.
- 20.7 It is agreed that for the purposes of this Agreement, I²R shall mean the Institute for Infocomm Research, A*STAR Research Entities only and shall not extend to any other research institute, center or division of A*STAR Research Entities. For avoidance of doubt, no research institute,

center or division within A*STAR Research Entities (other than I²R) shall have any obligation under this Agreement to the COLLABORATOR unless expressly agreed in writing.

- 20.8 Each Party has substantially participated in the drafting and negotiation of this Agreement, and no provision hereof shall be construed against either Party by virtue of the fact that such provision was drafted by such Party. All defined terms used in this Agreement shall be deemed to refer to the masculine, feminine, neuter, singular and/or plural, in each instance as the context and/or particular facts may require. Use of the terms "hereunder", "herein", "hereby", and similar terms refer to this Agreement.
- 20.9 Each of the Parties to this Agreement is acting only as an independent contractor. This Agreement does not constitute either Party hereto as the agent or legal representative of the other Party and does not create a partnership or joint venture between them.

21. **CONTRACTS (RIGHTS OF THIRD PARTIES) ACT**

Save for the parties identified in Clauses 7, 8 and 14, the Parties do not intend that any term of this Agreement should be enforceable by virtue of the Contracts (Rights of Third Parties) Act 2001 or otherwise, by any person or entity who is not a party to this Agreement.

SCHEDULE 1
Development of biomechanically-accurate tele-physiotherapy AI (TelePT Phase-1)

1. INTRODUCTION

Approx 2.4 billion people worldwide could benefit from rehabilitation, with a large portion experiencing musculoskeletal disorders. However, access to effective physical therapy is limited by geographic, logistical, and economic barriers. For example, 60M Americans live in rural areas, with limited access to clinics and care, especially for over 35 million who have mobility disabilities.

Current telehealth solutions lack the tools for accurate assessments, limiting care quality and clinician efficiency. This results in under-treated patients, clinician burnout, and escalating healthcare costs without clear outcome tracking.

This project leverages the relevant background IPs and know-hows of both I²R and TelePT, across biomechanics, physiotherapy theory and practices, computer vision especially human tracking, and large-language-models. Together, we address the multifaceted barriers in delivering PT services by leveraging both fully virtual & hybrid care models and digital tools to enhance access, efficiency, and care outcomes across stakeholders. The proposed solution has the potential to also derive new and actionable insights from biomechanical data.

This particular agreement covers the Phase-1 collaboration between I²R and TelePT.

2. SCOPE OF WORK

2.1 Overview

The Phase-1 project will be 9-months in duration, towards developing a minimum viable product (MVP) solution that includes a) a self-assessment kit (an iPad with TelePT assessment App, and a smart-band hardware device) and b) a Plan-of-care App on the same iPad.

Figure 1 Illustration of TelePT Solution and the three work packages under this Phase 1 project

As illustrated in Figure 1, the organization of the project breaks down to three connected work packages (WPs):

(WP1) Development of physio-specialised motion-Large-Language-Model that integrates assessment data, patient profile, and medical knowledge to provide an interactive interface to automatically outline patient's therapy goals, specific interventions and tools, and expected outcomes.

(WP2) Development of specialized visual AI for human tracking and *Range of Motion (ROM)* measurement of joints using an RGB-D camera

(WP3) Development of interactive *muscle strength test (MST)* technology using a smart-band device

The target tests and diagnostic predictions for Phase 1 are detailed in the Appendix section.

LLM for TelePT Plan-of-care (WP1)

This work package aims to develop a prototype mobile application of TelePT Plan-of-care.

It will integrate motion and ROM and MST data from the AI-based self-assessment solution from WP2+WP2. It will allow interactive inputs of patient profile and symptoms. It will feature an AI chat-box that can generate an assessment report and recommendation for therapy plans for the patient.

This work package will be led by the TelePT expert, leverage on TelePT's background IPs and know-hows on LLM-motion modelling framework. The I²R team will develop a question answering system and a Retrieval-Augmented Generation (RAG) model specifically for accessing and utilizing physiotherapy knowledge and patient information. I²R will provide the RAG model and related tools to TelePT. TelePT will integrate the RAG output, alongside motion data from other work packages and sensor information, into an existing or fine-tuned Large Language Model (LLM) to generate the plan-of-care.

To this end, the TelePT and I²R team will build a curated database including established PT handbooks, recent research publications, and a virtual patient profile dataset. The curated database serves as a medical knowledge base, enabling the LLM to provide informed and relevant recommendations.

This work package will deliver a functional app prototype and a validated database.

AI-based Self-assessment solution (WP2+WP3)

With WP2 and WP3, the project develops physio-self-assessment technology for muscle strength and Range of Motion. The technology integrates and optimizes 3D human motion tracking, force-sensing, and interactive interfaces for assessment of major joints and related muscle groups. This allows the patient user to conduct self-assessment with real-time monitoring and guidance.

The project will implement the select list of ROM and MST as defined in Appendix. Using relevant BIPs for camera-based human pose tracking, the team will conduct systematic lab tests to evaluate and document performance across various camera positions against reference measurements including a motion capture system, standard goniometry and dynamometry devices. The team will also conduct performance fine-tuning to resolve any performance issues on any test cases so as to achieve target performance as specified in the Appendix.

2.2 Phase-1 Milestones

S / N	Tasks	Responsible Party	Go / No Go Milestones	1	2	3	4	5	6	7	8	9
1	Development of basic features	I ² R	Go/ No-go milestone #1: - Initial basic features in ROM, MST and LLM - Initial curated PT database									
2	Initial prototype development and improvements design	I ² R	Go/ No-go milestone #2: Demonstrable prototype that achieves (see List A below)									
3	Initial prototype evaluation with clinicians	TelePT										
4	Integration and completion of Phase-1 prototype development for MVP	I ² R	Go/ No-go milestone #3: Target-customer evaluated POV with all key features integrated that meet the target performance (see List B below)									
5	Phase-1 prototype evaluation with target local and US customers	TelePT										
6	Wrap-up and TDs submission	I ² R										

List A:

- 1 to 2 ROM measurements in each region with error < 3 degree in reference to goniometric measurements (involving experts in-person or remotely)
- LLM responds to 2-3 sets of symptoms/diagnosis and generates a simple plan of care report including diagnosis, prognosis, goals, exercises, and timeline.
- Muscle force data for select muscle groups validated against dynamometer

List B:

- LLM responds to all the symptoms/diagnoses in the Phase 1 plan

- ROM error < 3 degree in I²R lab tests under controlled conditions
- Muscle strength measurement <5% in all the Phase 1 tests

3. PROJECT SCHEDULE / TIME FRAME

The project will see iterative development and validation of application prototypes in three stages

Stage 1 (Months 1-4)

The team will accomplish key tasks including project kick-off and lab setup, new components and instrument procurement, and development of initial technical solutions for the assessment and LLM functionalities of the WP1-3 technologies. Technically, the team will achieve the initial features of ROM and muscle tests (with functionality demo of human tracking during self-assessment tests listed in Appendix), and the initial LLM technology including the curated PT database and a basic RAG model.

Stage 2 (Months 5-7)

This stage aims to develop a functional demo system (referred to as TelePT's POC) that can showcase a high percentage of the target MVP features, including

- accurate measurement of 1 or 2 ROMs in each of the body regions, validated against goniometric measurements
- Accurate measurement of muscle strength of 1 or 2 strength tests in each of the body regions, validated against dynamometer
- LLM's capability to respond to 2-3 sets of symptoms and/or diagnosis and to generate a simple plan of care including diagnosis, prognosis, goals, exercises, and timeline.

Stage 3 (Months 8-9)

In this stage, the team will develop the minimally viable product prototype (referred to as TelePT's POV). Thus, this TelePT's POV includes both the remaining MVP features plus any feedback or priorities of target customers. The project will involve various validations including performance evaluation as well as demonstration/discussions with clinicians and target customers. All performance specifications are met as defined in the Appendix.

Upon completing Stage 3, this 9-month development plan will transit to Phase 2 that starts with technical enhancement and further validation before beta tests with customers.

4. DELIVERABLES

The Phase-1 project will deliver a minimum viable product (MVP) solution that includes a) a self-assessment kit (an iPad with TelePT App, and a smart-band hardware device) and b) a Plan-of-care App on the same iPad where

- The assessment kit uses an assessment App to conduct patient's self-assessment of range-of-motion especially of shoulder, elbow, hip, knee and ankle joints;
- The App wirelessly connects to the smart-band device with digitally-controllable resistance, and can simulate the resistance forces as if by a human therapist during the test; the smart-band can be attached to the human body on one end, and

attached to an anchor point on the other end), and measures muscle strength in relation to these joint motions.

- The App performs real-time tracking of the motion of the patient during the test, and provides interactive feedbacks to guide the self-assessment procedure.
- The Plan-of-care App provides interactive interfaces, based on the assessment data and domain knowledge AI (PT RAG model), to generate diagnosis and treatment plan recommendations.

5. INTELLECTUAL PROPERTY (IP)

5.1 I²R Background IPs- Solely owned by I²R

BIP No.	A*STAR Reference	I ² R Reference	Title
1	Z2022-058	PCT/SG2023/050782	Processing time-series data and related systems and methods
2	Z2024-178	TD2024002	RAG Based Robot Command Understanding with ASR Error Correction
3	Z2022-328 I2R/Z/13632	SWIP-QDMT-2022-07	Quantization of object detection model in Tensorflow Lite for Edge deployment
4	Z2024-372; IP2024-372-01	SG Patent No. 10202502106T	A system and a method of performing fine-grained temporal calibration
5		TD2025008	Intelligent sensing and computing of musculoskeletal activity, intention and performance
6		Y24170	MERaLiON AudioLLM for Spoken Language Comprehension with a focus on Singlish

5.2 TelePT Background IPs

No	
1	3D Pose Estimation Models available on IOS, Android, windows and Linux
2	Biomechanical/Kinematic algorithms <u>and framework</u> to generate goals, watchlist items, practice guides, ranges
3	Unity Avatar <u>and tools</u> to display trackers, add references, overlays
4	<u>IOS and Android application frameworks:</u> camera, image processing, storage, post and preprocessing
5	Agent Framework for LLM

	• Data Curation: Fine-tuned on real professional swings, instructional datasets, and expert Q&A; database collections and design. • Motion Model: Integrates a specialized constrative Motion Encoder to understand subtle 3D biomechanics in real time. • Large Vision-Language Model: Uses our LLaMo model family (7B–20B parameters) optimized for fast and accurate responses. • Multimodal RAG: Uses RAG to generate professional and knowledge-based responses. • Autonomous Multi-Agent System: Dynamically chooses between swing evaluation, coaching generation, and information retrieval tasks.
--	--

5.3 A*STAR I²R and TelePT FIP own by Technical Areas in relation to BIPs

5.4 Potential Foreground IPs

5.4.1 I²R FIPs (Foreground IPs owned by A*STAR Technical Areas)

For the purposes of this Agreement, I²R FIPs shall refer to any and all enhancements, developments, modifications, or derivative works that build upon the Background IP listed above. This includes, but is not limited to:

- Smart-band sensing and computing for muscle strength assessment
- Multi-modality precision joint mobility computing algorithms using 3D tracking data
- RAG-powered computer bot with command and question understanding, including spoken language comprehension

5.4.2 TelePT FIPs (Foreground IPs owned by TelePT Technical Areas)

For the purposes of this Agreement, TelePT FIPs shall refer to any and all enhancements, developments, modifications, or derivative works that build upon the Background IP listed above. This includes, but is not limited to:

- Advancements in the biomechanical measurement of full-body motion
- Improvements in the assessment and quantification of full active range of motion and mobility
- Innovations applicable to an AI-based physiotherapy system capable of autonomously generating a personalized Plan of Care and Home Exercise Program.

6. INPUTS TO THE PROJECT / RESOURCES

This is a statement of the projected R & D investment that TelePT will be putting into the project

Cost Component	Description	Cost (\$)
Cash I ² R	To co-fund the pre-GAP technical development	250,000
TelePT team manpower contribution	Including but not limited to chief officers, physiotherapy experts, and biomechanics scientists	411,850
Total R&D Investment		\$661,850

TelePT R&D contribution in Singapore

TelePT In-Kind Contribution in Singapore				
<u>NAME</u>	<u>Role</u>	<u>Month</u>	<u>Per month</u> <u>S\$</u>	<u>Total cost</u> <u>S\$</u>
Dr Lei Li	Acting CTO and Chief Scientist	9	USD 12,500 x exchange rate 1.3 = 16,250	146,250
Time spend for R&D contribution in Singapore				
<u>NAME</u>	<u>Role</u>	<u>Hours</u>	<u>Consulting Rate/Hour</u>	<u>S\$</u>
Mike Kennewick	Chairman and Product Advisor	40 hrs per week * 2 visit= total 80 hrs	\$1,200	96,000
Peter Look	Business and Finance Strategy	30 hrs per week * 2 visit= 60 hrs	\$1,200	72,000
Dr Brett De Yager	Clinical Doctor PHD-	40 hrs per week * 2 visit= total 80 hrs	\$800	64,000
TelePT R&D contribution from US				
	<u>Role</u>	<u>Hours</u>	<u>Consulting Rate/Hour</u>	<u>S\$</u>
Rich Kennewick	Sales Management	20	\$1,200	24,000
Doctor McFadden	Biomechanics Expert	12	\$800	9,600
			Total	411,850

I²R R&D investment (investment in Singapore only).

Cost Component	Description	Cost (S\$)
A*VC Gap Funding for project development	Pre-GAP fund for I ² R non-PI/I EOM, OOE and DEVT	199,018.54
Total Project contribution		199,018.54

7. PAYMENT SCHEDULE

TelePT will pay I²R a sum of Singapore Dollars Two Hundred and Fifty Thousand Only \$250,000 excluding GST and other prevailing taxes as imposed by the Singapore Government, payable in accordance with the following schedule, within thirty (30) days from the date of the invoice.

Milestone Number	Milestone	Schedule	Payment Amount (S\$)
1	Upon Signing of Agreement	T0	25,000
2	Completion of Milestone 1	T0+4 months	75,000
3	Completion of Milestone 2	T0+7 months	75,000
4	Completion of Milestone 3	T0+ 9 months	75,000
Total			250,000

*T0 refers to the effective date of this agreement.

Appendix: Specifications of Range of Motion and Muscle Strength Tests, as well as LLM diagnosis of pathologies (Phase 1)

Region	ROM	Strength	Pathologies
Shoulder	Flexion	Flexion	Shoulder Impingement
	Extension	Abduction	Bursitis/Tendinopathy
	External Rotation	External Rotation	Rotator Cuff Tear
	Internal Rotation	Internal Rotation	Adhesive Capsulitis
	Abduction	Scaption	Biceps Tendinitis
Elbow	Flexion	Flexion	Lateral Epicondylitis
	Extension	Extension	Medial Epicondylitis
			Olecranon Bursitis
Hip	Flexion	Flexion	Greater Trochanteric Bursitis
	Abduction	Extension	Femoral Acetabular Impingement
	External Rotation	Abduction	Hip Flexor tendinitis
	Internal Rotation	External Rotation	Osteoarthritis
		Internal Rotation	Hamstring Strain
			Piriformis Syndrome
Knee	Flexion	Flexion	Patellofemoral Pain Syndrome/CMP
	Extension	Extension	IT Band Syndrome
			Meniscus Tear
			Patellar tendinitis
			Ligament Tear
			Pes Anserine Bursitis
Ankle/Foot	Dorsiflexion	Dorsiflexion	Ankle Sprain
	Plantarflexion	Plantarflexion	Achilles Tendinopathy
			Plantar fasciitis
			Posterior Tibialis Tendinopathy
			Medial Tibial Stress Syndrome

Target performance metrics for ROM, strength measurements as well as LLM-based diagnosis are as follows.

- TelePT AI, based on LLM and machine learning, responds to all the symptoms/diagnoses in the Phase 1 plan, with the following target high accuracy rates when evaluated by medical professionals against established clinical standards: overall accuracy of 85% for all the pathologies on the Phase-1 list above; >90% accuracy for at least two top priority regions on the Phase-1 list.
- ROM error < 3 degrees from precision goniometry and/or marker-based mocap measurement
- Muscle strength measurement error <5% from the standard handheld dynamometry measurement
